

TOMBERLIN

AMERICA'S LEADER IN
SAFETY, PERFORMANCE & STYLING

Safety

Not self-combustible
Enhanced chemistry stability during overcharge and short circuit conditions
Ability to withstand freezing cold, excessive heat and rough terrain
Offers better performance:

- Higher charging rate equates to reduced charge time
- Longer consistent voltage during discharge
- Significantly more charge cycles and longer expected life
- Extended storage periods
- Very low rate of self-discharge

Better for the environment:

- Built with non-toxic materials
- Contains no rare earth metals

Performance

Maintenance free:

- No watering
- No fumes
- No sulfation
- No hassle

Power:

- More consistent during discharge
- Rapid g-force acceleration

Charging:

- Faster
- Partial charges

Exceptional driving distance

Simplified long term storage

5-Year Warranty

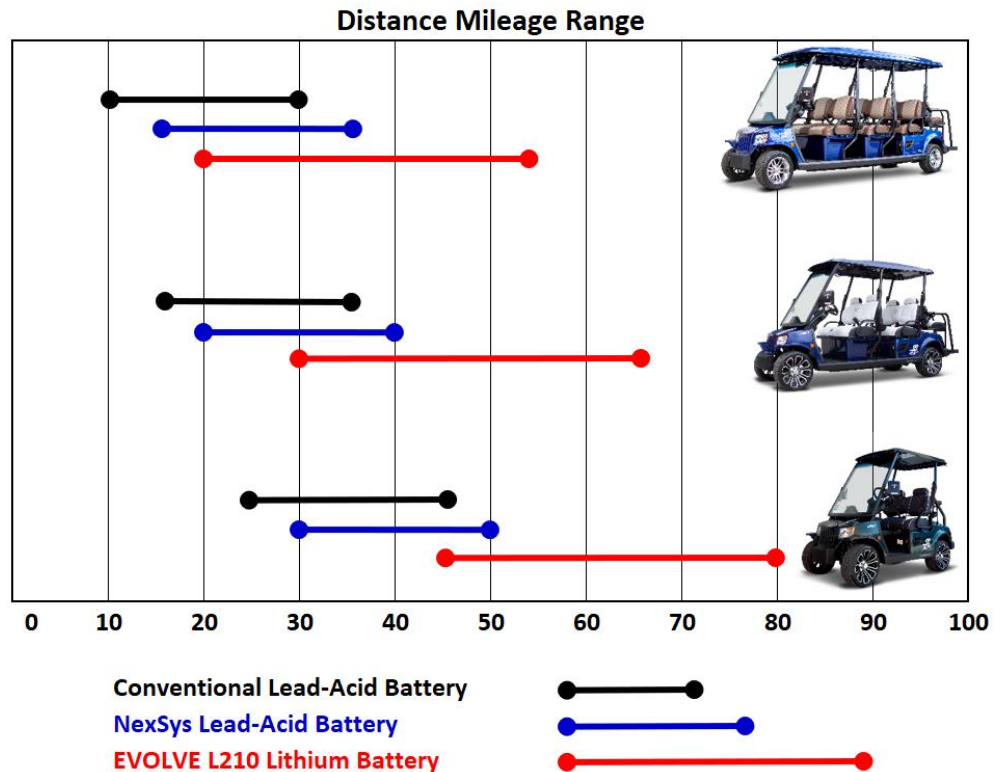

Fully Integrated Battery Charge Indicator

The battery charge indicator (green bar on the left side of the 7" LCD) depicts the real-time status of remaining charge. Plus, it provides notification when you're getting low and need to recharge.

EVOLVE L210

LITHIUM BATTERY SOLUTION

Power to get you there and back...plus a whole lot more!
